Hi Heather

Hope you are having a good weekend – attached is the letter I mentioned, which Jerry White sent to the Governor.

**Subject:** Proposal to Create a Spokane River PCB TMDL Using Monsanto Settlement Funds

(Submitted to Governor's office via the contact form - sent via email to Governor's staff and copied recipients)

Dear Governor Inslee.

Please find our attached proposal to create a Direct Implementation Fund and a Spokane River PCB TMDL with the funds from the Monsanto settlement. This is an appropriate and positive use of the funds available that would solve many problems in the Spokane River Basin with regards to PCB Pollution.

Thanks for your leadership on the issues that pertain to the State's Waters and our environmental health.

Best regards,

--
